

A-260

Heavy Duty Security Road Blocker

High Security and High Visibility.

The High Security Defence For Your Critical Spaces

The A-260 Road Blocker from Gunnebo Entrance Control offers the highest level of vehicle anti-ramming protection. It successfully passed crash tests and is certified according to ASTM F2656-07, M50/P1 (2.5m barrier).

The road blocker is a shallow mount, heavy duty system. Its unique integrated electric driven technology enables reliability, low maintenance and fast operation. Several widths of the system are available (from 2.5m to 4m). The system can operate during power failure.

- 1

ASTM M50/P1
resistance rated
- 2

Shallow mount for
flexible installation
- 3

Low maintenance for
long reliable service

Technical Specification

Height above surface	1000mm
Foundation Depth	260mm
Rising Speed	4 seconds
Resistance	7.5 ton @ 80Km/h
Length	Up to 4000mm
Operation	Electric Drive with ability to use fully manual
Cycles per Hour	200
MCBF	3Million
IP Rating	IP68
Operating Temperature	-20°C - +60°C
