

BLG-05-EH

Crash Rated Automatic Bollard

Superior Defence For Controlled Access

Robust Defence For Your Restricted Spaces

The BLG-05-EH is a high-security automatic bollard designed, tested and proven to withstand all of your potential needs. This bollard is ideal for military sites, government facilities, airports, critical infrastructure, high-traffic public spaces, and other areas requiring a high level of perimeter security.

This bollard's uniquely designed electro-hydraulic block drive includes a single enclosed unit providing the utmost reliability and durability (IP68 rated). This design means you simply plug in the BLG-05-EH - no external hydraulic cables or oil to spill or leak. You can choose between the standard stainless steel finish and LED lights, or opt for custom options also available.

- 1 Elegant look with highly visible LED lighting
- 2 Low maintenance with easy access to repairs
- 3 Totally weatherproof system, IP68 rating
- 4 Super easy to install: No external hydraulic cables or fluid leak risk
- 5 Tested to US ASTM F-2656-07 and PAS68: 2010 V/7500 standards

Technical Specification

Height above surface	1000mm
Sleeve Depth	1840mm
Bollard Diameter	270mm
Rising Time	5 seconds (~1.5 second EFO)
Protection Level	- PAS68:2010 V/7500[N3]/80/90:6.9/12.2 - ASTM F-2656-07 M50-P2 (273 inches)
Operation	Hydraulic / Electric
MCBF	1.5 Million (estimated)
